DISCOVERY LAB

YOU BRING YOUR CLASS. WE'LL BRING *the WOW!*

The Essentials for K-8 Field Trips

\$5
per student

60-90 min
guided session

Up to 80 students
per field trip

1:10
chaperone : students

You Pick the Adventure.

Choose from a curated catalog of lessons that fit your grade and standards. From coding robots to potato-head genetics – you decide.

Real Tools. Real Fun.

Students use tools, such as sensors, an augmented reality sandbox, models, and more. Every lesson is a hands-on extension of classroom learning.

Campus Vibes Included.

Add a self-guided tour of USI's beautiful campus, wander the Burdette Trails for nature exploration, then relax with a sack lunch on campus (optional).

READY TO BOOK?

1. Pick a lesson from the catalog that fits your needs.
2. Submit the online request form (at least 3 weeks ahead).
3. We will reach out within 3 business days to lock in details.
4. Show up, have fun, and watch your students get excited about STEM!

Located in the David L. Rice Library, University of Southern Indiana
